**AGILE BUSINESS ANALYSIS**

# Course Overview

Being a business analyst or having the skills of one is essential to the success of business organizations nowadays. In this course, delegates will delve into the role, tasks and responsibilities of the business analyst (BA). Learn effectively to select and employ elicitation, analysis and design techniques for ensuring business need and requirements and optimum solution proposition.

Through an extensive practical workshops and hands-on exercises, participants will learn to;

- Define the scope of work, analyze business needs.
- Master requirements-elicitation techniques that will work for a variety of projects and audiences.
- Dissect, package, document, communicate, and manage requirements effectively.
- Practice working progressively towards formulation of a business solution design.

The course will empower organization through their program delegates to apply these skills practically in their business analysis as an effective Business Analyst, immediately reducing rework & cost, adding value and building effective relationships with project stakeholders.

Agility lies at the core of change and BAs are the agents of change . Learn the fundamentals of requirements engineering and become a lifetime certified agile business analyst. The course imparts of how RE methods and techniques can advantageously be applied in agile development processes, and how techniques from the agile approach can improve the RE practice. The course is accredited by the IREB for the RE@Agile Primer Certification and is designed to give the Business Analyst the skills needed to successfully elicit, anticipate, analyze, validate and champion requirements throughout an Agile project with reliance on high levels of adaptability, communication, progressive elaboration and stakeholders' collaboration. The course will describe the most popular Agile approaches to take the Agile Business Analyst through the phases of an Agile project. It ensures extensive practice by attendees for gaining practical experience throughout the training.

# Our testimonials

## **Pierre Amoun :**

Was apprehensive about taking the course, it turned out to be an eye-opener! Explanation by relevant examples with role-play were extremely helpful to understand the concepts. As for the scope of the course, the amount of details covered and how it can be applied in real scenarios is positively scaring! I Highly recommend this course.

**Pierre Amoun**  
CEO of PCS, Lebanon

## **Emad ElShorbagy :**

The feedback from the attendees was more than perfect, also the organization of the whole process was flawless FCA highly recommends BBL for their training services

**Emad ElShorbagy**
